

# TECHNICAL DATA SHEET

## FERTICELL POTASSIUM 20% POWDER

Potassium K 20.

Product usable in Organic Agriculture according to EC Regulation No. 834/2007 and 889/2008.  
Product that complies with NOP (National Organic Program - USDA)..

### Description- specifications

**FERTICELL POTASSIUM POWDER 20** is an ecological potassium fertilizer, indicated for the prevention and correction of potassium deficiencies, and allows optimal ripening, color and size of fruits. It is a chloride-free fertilizer.

**FERTICELL POTASSIUM POWDER 20** can be applied to the soil in all types of crops during any stage of the vegetative cycle.

- Prevents and corrects potassium deficiency disorders. - Improves fruit set and fattening of crops by optimizing plant metabolism.

- Allows an adequate balance between breathing and perspiration, increasing resistance to stress due to lack of water. - Better regulation of osmotic pressure and cell turgor, regulating water and photosynthetic metabolism.

**FERTICELL POTASSIUM POWDER 20** increases the resistance of plants in unfavorable climatic conditions, and should be used especially during the fruiting phase.

Foliar and Fertigation

### Certifications

Organic Farming according to EC Regulation No. 834/2007 and 889/2008. Product that complies with NOP (National Organic Program - USDA) Control : ECOCERT SA F - 32600

**Agroplasma SL**  
Polígono Industrial Santa Teresa  
Calle Torre del Mar N°56  
29004 Malaga, Spain

### GUARANTEED ANALYSIS:

Composition	Percentage (p / p)
Total Potassium Oxide (K <sub>2</sub> O)	20,00%

### PHYSICAL PROPERTIES

State:	Powder
Color:	Dark grey
Solubility:	Slow release

### GENERAL RECOMMENDATIONS FOR USE AND DOSAGE

Crops	Soil Dose
Fruit trees (citrus trees, apples, pears, blueberries, almonds, cherries, peaches, avocados, etc.)	According to the needs of the crop
Horticultural crops: (Tomato, Potato, Cucumber, Melon, Zucchini, Cauliflower, Onion, Carrot, Pepper, etc.)	According to the needs of the crop
<b>Extensive crops: (Cereals, Alfalfa, Cotton, Beet, Corn, Sunflower, etc.)</b>	According to the needs of the crop

• The quantities depend on the crop, phenological state, level of deficiency and type of soil. • The physical and appearance characteristics of the product may be altered due to the ecological nature of the product.

• Use under technical advice. Keep the product at room temperature. Important notes: It is compatible with most phytosanitary products and fertilizers and with most herbicides. Except those with alkaline reaction or mineral oils.

However, the following precautions are recommended:

- Do not mix with highly alkaline products.
- Do not mix with products containing phosphorus and/or calcium.
